Art Unit: 2125

## **DETAILED ACTION**

## Allowable Subject Matter

1. Claims 1-21 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: The allowability of the claims resides in part that the closest prior art of record **Bode et al. (US 6,535,774)** does not disclose, alone or in combination, the steps of:

Regarding independent claim 1, acquiring data for a perturbation model for a number, N, of control parameters, N being at least 1, by performing a minimum of N condition profile measurements, wherein each profile results from perturbing one or more of the control parameters until each of the control parameters has been perturbed; and constructing the perturbation model by aligning and synchronizing the temperature profile data so that the data share the same time scale to allow representing the perturbation model as T(x,y,t), in combination with the other elements and features of the claimed invention.

Regarding independent claims 15 and 18, acquiring data for a perturbation model for a number, N, of control parameters, N being at least 1, by performing a minimum of N temperature profile measurements, wherein each temperature profile results from perturbing one or more of the control parameters until each of the control parameters has been perturbed; constructing the perturbation model by aligning and synchronizing the temperature profile data so that the data share the same time scale to allow representing the perturbation model as T(x,y,t), in combination with the other elements and features of the claimed invention.

Application/Control Number: 10/673,049 Page 3

Art Unit: 2125

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## Conclusion

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Zoila E. Cabrera whose telephone number is 571-272-3738. The examiner can normally be reached on M-F from 8:00 a.m. to 5:30 p.m. EST (every other Friday).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Leo Picard, can be reached on (571) 2723749. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306. Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-305-9600.
